Our Purpose

Janice Faye's Ranch is an equine-assisted learning program that pairs rescued horses with kids in crisis to assist them in moving forward toward healing and healthy relationships.

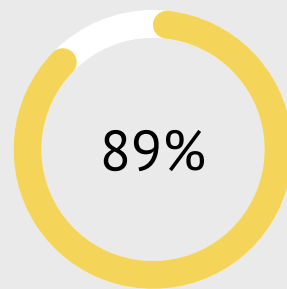

THE SERVICE

The youth/horse partnership activities allow youth to demonstrate key skills in understanding behaviors and the way individuals and families communicate with each other. These skill building experiences promote life-changing transformations for clients beyond their work with horses.

OUR CLIENTS

Referrals are from local child advocacy centers, DSS, school guidance counselors, Cumberland County WORTH court, and networking agencies met through the Sampson County Juvenile Crime Prevention Council.
